4. PUBLIC COMMENTS

Donna Jenkins, representative for the Murphy Historical Society. Donna provided an update to Council that the Murphy Historical Society has received a new grant in the amount of five hundred dollars (\$500.00) to publish a book on the Murphy cemeteries. The Murphy Historical Society has completed the 2015 grant on saving Texas history and on The Portal to Texas History site are two hundred fifty-seven (257) Murphy photos, eighty-two (82) postcards, sixteen (16) pages of text, four (4) letters and three (3) legal documents. Today, the Murphy Historical Society received a one thousand dollar (\$1,000) grant for 2016 and has provided to University of North Texas: two hundred thirty-six (236) photos and thirty-three (33) text documents that have been scanned by the university. The Murphy Historical Society has contributed ten (10) photos and narratives to the Historical Asset Survey for Collin County. Murphy history can be found in Collin County and in the State of Texas' websites. The last item, the Murphy Historical Society received a gift donation of artifacts from the estate of Dessie Haker. These artifacts came from the family of Nelle Turney, whose was the great granddaughter of William Murphy.

Projects for the future: 1). Working with the Exchange of Club of Murphy on a project called "Murphy Makers and Thinkers," project is still in the planning stages and hope to have completed by October 2017. 2). Another important item is the Wylie/Sachse/Murphy Societies collaborating together in a group instead of duplicating efforts, since we have a common heritage of people who lived in these communities and trying to preserve history. Three times a year, we will have a speaker participate from each group to speak and invite individuals from the community to hear about the history. 3). Murphy Family Cemetery, worked five (5) long years in trying to obtain state designation for the cemetery. The plaque has arrived and it is sitting in the Parks department at Collin County, will have marker installed sometime in November, planning a huge celebration and have contacted the Murphy family members to return for the event. Hopefully by then, will have the Murphy Cemetery book written and for sale with the proceeds to benefit the upkeep of the cemetery.

This year, the Murphy Historical Society will work on the history of World War I as it is the one hundred (100th) anniversary of the United States involvement in World War I. We are planning a display of four (4) brother's portraits who resided in Murphy who all fought in the war.

Council thanked Donna for her passion for the history of Murphy.

EXHIBIT A

**INVESTMENT POLICY
OF THE
CITY OF MURPHY, TEXAS**

I. POLICY STATEMENT

The purpose of this document is to set forth specific investment policy and strategy guidelines for the City of Murphy in order to achieve the goals of safety, liquidity, yield, and public trust for all investment activity. This policy serves to satisfy the statutory requirements of the Public Funds Investment Act, Chapter 2256 of the Texas Government Code, as amended.

The receipt of a market rate of return will be secondary to the requirements for safety and liquidity. It is the intent of the City to be in complete compliance with local law and the Texas Public Funds Investment Act (the "Act"). The earnings from investment will be used in a manner that best serves the interests of the City.

II. OBJECTIVES OF INVESTMENT POLICIES

The primary objectives of the City's investment program in order of priority shall be preservation and safety of principal, liquidity, diversification and yield. Investments are to be chosen in a manner which promotes diversity by market sector, credit and maturity. All investments shall be designed and managed in a manner responsive to the public trust and consistent with State and Local law.

(a) SAFETY OF PRINCIPAL:

The foremost and primary objective of the City's investment program is the preservation and safety of capital of the overall portfolio. Each investment transaction will seek first to ensure that capital losses are avoided, whether the loss occurs from the default of a security or from erosion of market value. The objectives will be to mitigate credit risk and interest rate risk. To control credit risk, investments should be limited to the safest types of securities. Financial institutions, broker/dealers and advisers who serve as intermediaries, shall be pre-qualified by the City. The credit ratings of investment pools and individual securities will be monitored to assure compliance with this policy and state law.

To control interest rate risk, the City will structure the investment portfolio so that securities mature to meet cash requirements for ongoing operations and will monitor marketable securities daily. Should an issuer experience a single step downgrade of its credit rating by a nationally recognized credit rating agency within 90 days of the position's maturity, the Investment Officer may approve the holding of the security to maturity.

(b) LIQUIDITY:

The City's investment portfolio will remain sufficiently liquid to enable the City to meet operating requirements that might be reasonably anticipated. Liquidity will be achieved by matching investment maturities with forecasted cash flow funding requirements, by investing in securities with active secondary markets and by

diversification of maturities and call dates. Furthermore, since all possible cash demands cannot be anticipated, the portfolio, or portions thereof may be placed in money market mutual funds or local government investment pools, which offer same day liquidity for short-term funds.

(c) **DIVERSIFICATION:**

Diversification of the portfolio will include diversification by maturity and market sector and will include the use of a number of broker/dealers for diversification and market coverage. Competitive bidding will be used on sale and purchase.

(d) **YIELD:**

The City's investment portfolio will be designed with the objective of regularly meeting or exceeding the average rate of return on three month U.S. Treasury Bills. The investment program will seek to augment returns above this threshold consistent with risk constraints identified herein, cash flow characteristics of the portfolio and prudent investment principles. Investments are limited to relatively low risk securities in anticipation of earning a fair return relative to the risk being assumed. Marketable securities shall not be sold prior to maturity with the following exceptions:

- (1) A security with declining credit may be sold early to minimize loss of principal.
- (2) A security swap that would improve the quality, yield or target duration in the portfolio.
- (3) Liquidity needs of the portfolio require that the security be sold.
- (4) If market conditions present an opportunity for the City to benefit from the sale.

Funds held for future capital projects will be invested in such a way as to try to produce enough income to offset inflationary construction cost increases. However, such funds will never be unduly exposed to market price risks that would jeopardize the assets available to accomplish their stated objective, or be invested in a manner inconsistent with applicable federal and state regulations. Yields on debt proceeds that are not exempt from federal arbitrage regulations are limited to the arbitrage yield of the debt obligation. Investment officials will seek to preserve principal and maximize the yield of these funds in the same manner as all other city funds. However, it is understood that if the yield achieved by the city is higher than the arbitrage yield, positive arbitrage income will be averaged over a five year period and netted against any negative arbitrage Income and the net amount shall be rebated to the federal government as required by current federal regulations.

(e) **PUBLIC TRUST:**

All participants in the investment process will seek to act responsibly as custodians of the public trust. Investment officials will avoid any transactions that might impair public confidence in the City's ability to govern effectively. The governing body recognizes that in a diversified portfolio, occasional measured losses due to market volatility are inevitable, and must be considered within the context of the overall portfolio's investment return, provided that adequate diversification has been implemented. The Investment Officer shall adhere to the City of Murphy Code of Conduct and City Charter.

III. PRUDENT INVESTOR RULE

- (a) The standard of prudence to be applied by the investment officer shall be the "prudent investor" rule as provided in section 2256.006 of the Texas Government Code, as amended. This section states, "Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived."
- (b) Investment officers acting in accordance with written procedures and exercising due diligence, shall not be held personally liable for a specific security's credit risk or market price changes, provided deviations from expectations are reported in a timely fashion and appropriate action is taken to control adverse developments. The City will perform a compliance audit of management controls on investments and adherence to investment policies annually. Pursuant to section 2256.006(b) of the Texas Government Code, as amended, in determining whether an investment officer has exercised prudence with respect to an investment decision, the determination shall be made taking into consideration: (1) the investment of all funds, or funds under the City's control, over which the officer had responsibility rather than a consideration as to the prudence of a single investment; and (2) whether the investment decision was consistent with the written investment policy of the City of Murphy.

Sec. 2256.005. INVESTMENT POLICIES; INVESTMENT STRATEGIES; INVESTMENT OFFICER. (a) The governing body of an investing entity shall adopt by rule, order, ordinance, or resolution, as appropriate, a written investment policy regarding the investment of its funds and funds under its control.

(b) The investment policies must:

(1) be written;

(2) primarily emphasize safety of principal and liquidity;

(3) address investment diversification, yield, and maturity and the quality and capability of investment management; and

(4) include:

(A) a list of the types of authorized investments in which the investing entity's funds may be invested;

(c) The investment policies may provide that bids for certificates of deposit be solicited:

(1) orally;

(2) in writing;

(3) electronically; or

(4) in any combination of those methods.

(d) As an integral part of an investment policy, the governing body shall adopt a separate written investment strategy for each of the funds or group of funds under its control. Each investment strategy must describe the investment objectives for the particular fund using the following priorities in order of importance:

(1) understanding of the suitability of the investment to the financial requirements of the entity;

(2) preservation and safety of principal;

(3) liquidity;

(4) marketability of the investment if the need arises to liquidate the investment before maturity;

(5) diversification of the investment portfolio; and

(6) yield.

(e) The governing body of an investing entity shall review its investment policy and investment strategies not less than annually. The governing body shall adopt a written instrument by rule, order, ordinance, or resolution stating that it has reviewed the investment policy and investment strategies and that the written instrument so adopted shall record any changes made to either the investment policy or investment strategies.

(f) Each investing entity shall designate, by rule, order, ordinance, or resolution, as appropriate, one or more officers or employees of the state agency, local government, or investment pool as investment officer to be responsible for the investment of its funds consistent with the investment policy adopted by the entity. If the governing body of an investing entity has contracted with another investing entity to invest its funds, the investment officer of the other investing entity is considered to be the investment officer of the first investing entity for purposes of this chapter. Authority granted to a person to invest an entity's funds is effective until rescinded by the investing entity, until the expiration of the officer's term or the termination of the person's employment by the investing entity, or if an investment management firm, until the expiration of the contract with the investing entity. In the administration of the duties of an investment officer, the person designated as investment officer shall exercise the judgment and care, under prevailing circumstances, that a prudent person would exercise in the management of the person's own affairs, but the governing body of the investing entity retains ultimate responsibility as fiduciaries of the assets of the entity. Unless authorized by law, a person may not deposit, withdraw, transfer, or manage in any other manner the funds of the investing entity.

(g) Subsection (f) does not apply to a state agency, local government, or investment pool for which an officer of the entity is assigned by law the function of investing its funds.

Text of subsec. (h) as amended by Acts 1997, 75th Leg., ch. 685, Sec. 1

(h) An officer or employee of a commission created under Chapter 391, Local Government Code, is ineligible to be an investment officer for the commission under Subsection (f) if the officer or employee is an investment officer designated under Subsection (f) for another local government.

Text of subsec. (h) as amended by Acts 1997, 75th Leg., ch. 1421, Sec. 3

(h) An officer or employee of a commission created under Chapter 391, Local Government Code, is ineligible to be designated as an investment officer under Subsection (f) for any investing entity other than for that commission.

(i) An investment officer of an entity who has a personal business relationship with a business organization offering to engage in an investment transaction with the entity shall file a statement disclosing that personal business interest. An investment officer who is related within the second degree by affinity or consanguinity, as determined under Chapter 573, to an individual seeking to sell an investment to the investment officer's entity shall file a statement disclosing that relationship. A statement required under this subsection must be filed with the Texas Ethics Commission and the governing body of the entity. For purposes of this subsection, an investment officer has a personal business relationship with a business organization if:

(1) the investment officer owns 10 percent or more of the voting stock or shares of the business organization or owns \$5,000 or more of the fair market value of the business organization;

(2) funds received by the investment officer from the business organization exceed 10 percent of the investment officer's gross income for the previous year; or

(3) the investment officer has acquired from the business organization during the previous year investments with a book value of \$2,500 or more for the personal account of the investment officer.

(j) The governing body of an investing entity may specify in its investment policy that any investment authorized by this chapter is not suitable.

(k) A written copy of the investment policy shall be presented to any person offering to engage in an investment transaction with an investing entity or to an investment management firm under contract with an investing entity to invest or manage the entity's investment portfolio. For purposes of this subsection, a business organization includes investment pools and an investment management firm under contract with an investing entity to invest or manage the entity's investment portfolio. Nothing in this subsection relieves the investing entity of the responsibility for monitoring the investments made by the investing entity to determine that they are in compliance with the investment policy. The qualified representative of the business organization offering to engage in an investment transaction with an investing entity shall execute a written instrument in a form acceptable to the investing entity and the business organization substantially to the effect that the business

organization has:

- (1) received and reviewed the investment policy of the entity; and
- (2) acknowledged that the business organization has implemented

reasonable procedures and controls in an effort to preclude investment transactions conducted between the entity and the organization that are not authorized by the entity's investment policy, except to the extent that this authorization is dependent on an analysis of the makeup of the entity's entire portfolio or requires an interpretation of subjective investment standards.

(1) The investment officer of an entity may not acquire or otherwise obtain any authorized investment described in the investment policy of the investing entity from a person who has not delivered to the entity the instrument required by Subsection (k).

(m) An investing entity other than a state agency, in conjunction with its annual financial audit, shall perform a compliance audit of management controls on investments and adherence to the entity's established investment policies.

(n) Except as provided by Subsection (o), at least once every two years a state agency shall arrange for a compliance audit of management controls on investments and adherence to the agency's established investment policies. The compliance audit shall be performed by the agency's internal auditor or by a private auditor employed in the manner provided by Section [321.020](#). Not later than January 1 of each even-numbered year a state agency shall report the results of the most recent audit performed under this subsection to the state auditor. Subject to a risk assessment and to the legislative audit committee's approval of including a review by the state auditor in the audit plan under Section [321.013](#), the state auditor may review information provided under this section. If review by the state auditor is approved by the legislative audit committee, the state auditor may, based on its review, require a state agency to also report to the state auditor other information the state auditor determines necessary to assess compliance with laws and policies applicable to state agency investments. A report under this subsection shall be prepared in a manner the state auditor prescribes.

(o) The audit requirements of Subsection (n) do not apply to assets of a state agency that are invested by the comptroller under Section [404.024](#).

Sec. 2256.006. STANDARD OF CARE. (a) Investments shall be made with judgment and care, under prevailing circumstances, that a person of prudence, discretion, and intelligence would exercise in the management of the person's own affairs, not for speculation, but for investment, considering the probable safety of capital and the probable income to be derived. Investment of funds shall be governed by the following investment objectives, in order of priority:

- (1) preservation and safety of principal;
- (2) liquidity; and
- (3) yield.

(b) In determining whether an investment officer has exercised prudence with respect to an investment decision, the determination shall be made taking into consideration:

- (1) the investment of all funds, or funds under the entity's control, over which the officer had responsibility rather than a consideration as to the prudence of a single investment; and
- (2) whether the investment decision was consistent with the written investment policy of the entity.

Amended by Acts 1995, 74th Leg., ch. 402, Sec. 1, eff. Sept. 1, 1995.
