Mayor Scott Bradley
Murphy City Council
206 N. Murphy Road
Murphy, Texas 75094

Honorable Mayor Bradley and Members of the City Council,

In accordance with the City of Murphy's Charter, Section 7.02, and with the financial policies of the City, I am pleased to submit the FY21 Budget for the fiscal year October 1, 2020 through September 30, 2021

The budget process began on February 18, 2020, with City Council adoption of the FY21 Budget Calendar. Shortly thereafter, the leadership and management teams began developing the FY21 Budget. Budget work sessions were held starting in April. With the onset of a global pandemic, along with significant changes resulting from Senate Bill 2, adopted by the Texas Legislature in 2019, Council adopted a revised FY21 Budget Calendar in July. The work sessions continued into August, with the biennial fee schedule review. During the work sessions, the City Manager provided overviews of different areas of the budget, and the departments presented their respective budgets to City Council. Revenues, expenditures and projected fund balances were presented. A more detailed description of the process is found in the Budget Overview section beginning on page 12.

FINANCIAL SUMMARY

The total budget for FY21 is \$48,260,347, a 37% increase from the FY20 budget. One of the biggest changes in the FY20 budget, was the capital program that began in FY18. The City has completed six of the twenty-one projects, and is making significant progress on the remaining ones. This is also true for the Certificates of Obligation (CO) funds and the IT tax notes. During FY18, the City Council authorized a combined \$28.2 million in new debt for improvements across the City to roads, drainage, infrastructure, public safety facilities, parks and recreation amenities, water and sewer system upgrades, and security and technology replacements. The projects are being funded through a combination of \$21.6 million in general obligation bonds, \$5.5 million in certificates of obligation, and \$1.1 million in tax notes.

The following table provides a comparison of the budgets for FY20 and FY21 by fund, and the percentage change for each one.

PROPERTY VALUES

The City of Murphy once again experienced an increase in certified appraised values, although values are increasing by less each year. For FY21, there is a 1.69% increase resulting in a certified estimated value of \$2,640,000,000. Of that increase, \$30,712,211 is due to new construction, which is two and one-half times the amount of new construction included within the FY20 budget. The five-year forecast is based on a projected 2% annual increase in property values.

The City’s property taxes are divided into two components: Maintenance & Operations (M&O) and Interest & Sinking Fund (I&S), or Debt Service. The M&O portion funds the daily operations of City government, such as administration, fire, police, parks, streets, code compliance, community development, and sanitation. I&S is the portion that funds the debt the City has incurred to provide essential infrastructure and quality of life amenities for the community. The City’s tax rate was lowered for five consecutive years to help offset the impact of increasing property values. For FY21, the overall tax rate increased by half of one cent (\$0.005). The increase in property values helps offset increasing costs throughout the City, including debt service on the general obligation bonds and technology tax notes that were sold in FY18. The proposed tax rate for purposes of the FY21 budget is equal to the current tax rate of \$0.495000 per \$100 of assessed valuation. The M&O rate is \$0.309856, and the I&S rate for debt service is \$0.185144. The average overall tax rate for the past ten years is \$0.527500.

BUDGET OVERVIEW

PROCESS

The FY21 Budget process began with City Council’s adoption of the budget calendar on February 18, 2020. Last year’s final budget spreadsheets were updated and sent to the departments to complete their FY20 projections, FY21 requested budgets, and FY22-25 projected budgets. In March, the leadership team met for a half-day retreat, similar to the previous years. Then in early April, the departments began meeting individually with the City Manager to review their FY20 projections, as well as their requested FY21 budgets, including their supplemental requests.

In late April, the City Council budget work sessions began, and continued into June. The FY21 budgets for MDD and MCDC were presented to their respective boards and recommended unanimously for approval to the City Council. Certified estimates of value were received by the statutory deadline. A work session to discuss the tax rate and different assessed valuation growth rates took place on June 9th, due to the pandemic and Senate Bill 2 provisions. Based on the discussion at the work session, staff prepared a Resolution for the June 16th Council meeting, directing the City Manager to calculate the voter-approval rate using an 8% increase in the M&O rate, rather than 3.5%. The adopted Resolution was sent to the Collin County Tax Assessor-Collector since their office actually calculates the required tax rates. In order to ensure adequate time to prepare a budget after the tax rates were received, Council adopted a revised budget calendar on July 7th.

Senate Bill 2 requires Council to adopt the proposed tax rate by record vote, which was presented on August 18th for their consideration. The proposed tax rate was the voter-approval rate, which was the maximum rate that could have been considered for final adoption on September 15th. The City Manager’s proposed budget was developed based on the FY20 tax rate, which was lower than

the voter approval rate. The FY21 Budget was filed with the City Secretary on August 18, 2020.

A public hearing was held on the proposed tax rate and the proposed FY21 budget on September 8th, 2020. Only one public hearing was required under the newly enacted Senate Bill 2.

On September 15, 2020, City Council approved and adopted the FY21 budget, adopted the tax rate, and adopted the fee schedule which included the water, sewer, stormwater, and solid waste rates.

RESULTS

The FY21 budget is based on the same ad valorem tax rate of \$0.495000 as FY20. With only a slight increase in property values (the lowest increase in over ten years), and a larger debt rate due to the new tax notes (see discussion below), property tax revenue is relatively flat compared to FY20. Sales taxes, franchise fees, and court revenue are all less than FY20, with only permits and licenses, and solid waste revenue increasing, but not enough to offset the declines.

Expenditures are comprised of four main categories – personnel services, materials and supplies, contractual services, and capital outlay. Personnel services represent almost two-thirds of the total costs.

Prior to the budget process, the City Manager created a Pay Plan Review Team, to develop options that would be more financially sustainable over time than the current pay plan, while also addressing other needs such as recruitment, retention, and being competitive with our market (peer) cities. In addition to the City Manager, the Police and Fire Chiefs, the Parks Superintendent, the Human Resources Director, and the Finance Director also served on the Pay Plan Review Team. Several meetings were held and various scenarios were modeled. Town Hall style meetings were available for all employees to attend, hear the various options, and comment or ask questions.

The options were then presented to the City Council at a work session on March 17, 2020. Based on the discussion at the work session, the FY21 budget for personnel services was based on Pay Plan Option C. The highlights of this plan include:

- Sworn:
 - o Adjust the police and fire step plans to labor market midpoint with a one year lag
 - o Step pay plans based on a 5% increase between steps; maximum of 6 steps
 - o Biennial step increases of 5% and advancing all sworn employees into the next step for the initial year (FY21)
 - o Biennial (alternating with the steps) market adjustment of 2% (coinciding with the years merit increases are given to non-sworn personnel)

- Non-Sworn:
 - o One-time adjustment for any employee whose classification grade is 15% or more below labor market midpoint with a one year lag to the labor market midpoint with a one year lag
 - o Biennial merit increases up to 3% (based on performance)
 - o Biennial (alternating with merit increases) market adjustment of 2% (coinciding with the years step increases are given to sworn personnel)

Other costs that impact personnel services are health, dental, and other auxiliary insurance benefits. The annual bid request for health insurance resulted in no increase in premiums, no change in plan design, and no change in carriers. Other benefits had minor premium increases.

Capital expenditures were once again removed from the General Fund budget and recommended for funding through the sale of tax notes. On May 21st, the City sold \$1.6 million in tax notes for vehicles and equipment for the police, fire, public services, and IT departments.

The other two expenditure categories – materials and supplies, and contractual services, remain relatively flat for FY21 compared to FY20.

Based on the projected revenue and expenditures for FY21, as described above, there is a projected shortfall of \$438,000. The shortfall will be subtracted from the General Fund fund balance of \$6.2 million, which exceeds the 15% reserve requirement by \$3.3 million.

The excess reserve in the General Fund fund balance will be essential in bolstering the City during the remainder of the COVID-19 pandemic. While the City was fortunate to receive almost \$1 million in CARES Act funding from Collin County, any expenditures in excess of that will need to be submitted to FEMA for reimbursement. It is uncertain at this time, however, when reimbursement applications can be submitted, and if FEMA will have adequate resources even to fund the 75% limit placed on reimbursements, given the magnitude of the pandemic and the extensive losses incurred by the public and private sector alike.

GENERAL FUND

REVENUE

Total General Fund revenue for FY21 is \$15,039,556, a net decrease of \$109,687 from the FY20 budget. The breakdown of revenue sources is discussed below, followed by a pie chart depicting the proportion of the various types of revenue.

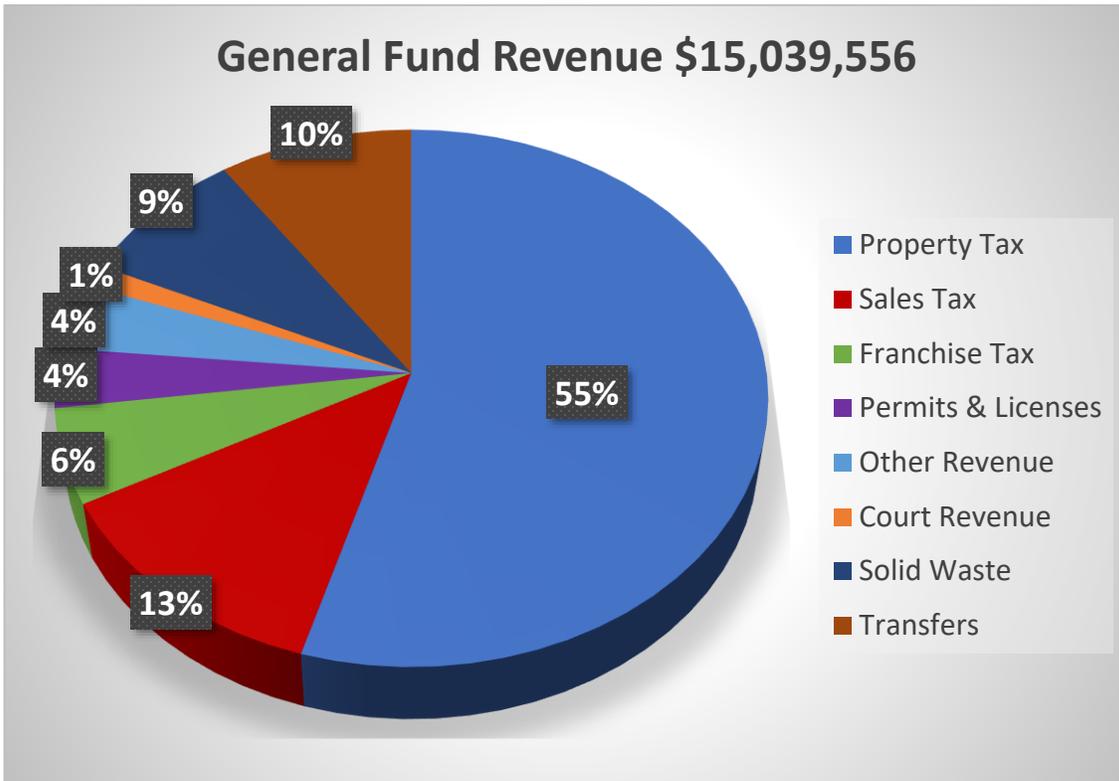

Property taxes are divided into two rates, M&O and I&S. The M&O (Maintenance and Operations) rate funds the daily operations of City government, such as administration, fire, parks, police, streets, and sanitation services in the General Fund. The revenue received through property tax collection comprises more than half of the total General Fund revenue.

The I&S (Interest and Sinking Fund) rate is levied for debt service payments (principal and interest) related to financing capital projects and equipment. The FY21 combined rate for budget purposes is \$0.495000 per \$100 of assessed valuation, the same as the current rate. The M&O rate is \$0.309856, and the debt service rate is \$0.185144. The average market value of a single-family home decreased slightly from \$392,592 to \$392,000. The tax levy for the average home in Murphy under the FY21 Budget is \$1,940. This represents a slight decrease from the current tax levy.

The second-largest source of revenue to the General Fund is sales tax revenue, which generates about \$2 million a year, or 13% of total revenue. The FY21 budget reflects a decrease compared to the FY20 budget, due to the uncertainty of consumer spending during the ongoing pandemic. At the time of this writing, actual sales tax collections were outpacing projections, but due to the volatility of the revenue source, the budget projections remain the same.

The remaining revenue for FY21 is from several sources. Franchise fees, which make up 6% of the total, are less than FY20, due to recent legislation that cut telephone and cable franchise fees in half. Other revenue sources are permits and licenses (4%), solid waste (9%), court revenue (1%), and other revenue (4%) from interest income, police charges, recreation programs, facility rentals, ambulance fees, and recycle rebates.

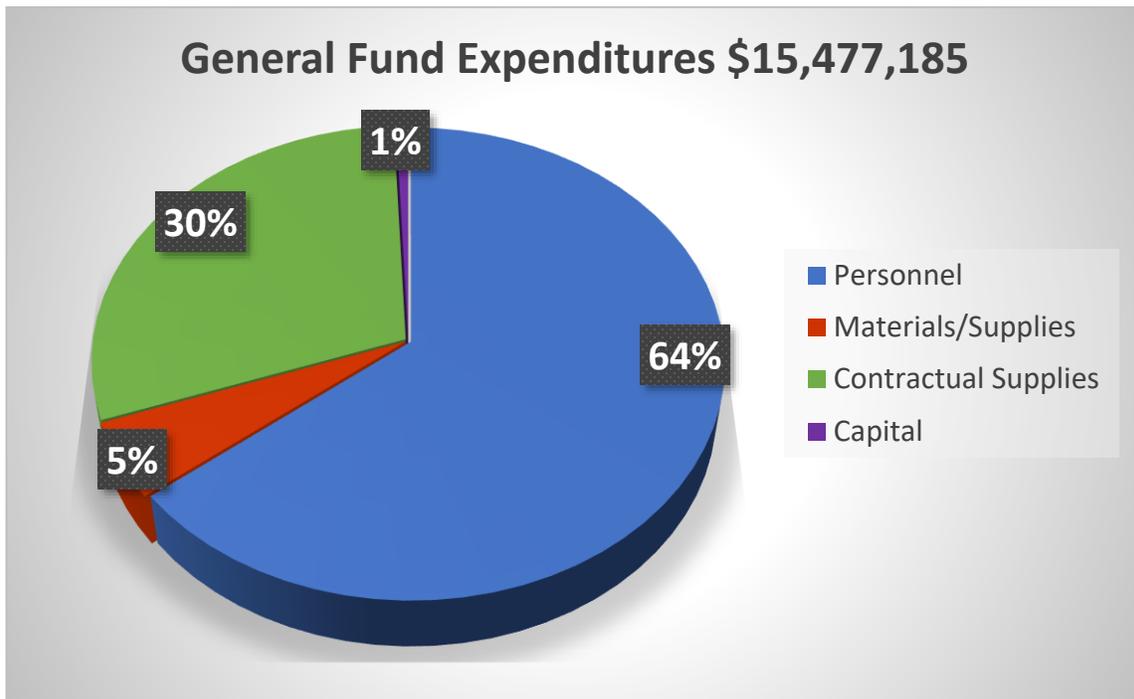

The General Fund also receives transfers from several funds to cover administrative costs. The FY21 budget includes transfers from the Utility Fund of \$900,000; the Murphy Community Development Corporation (MCDC) of \$282,246, the Murphy Municipal Development District (MDD) of \$250,112, the Building Security (Bailiff costs), and the Juvenile Case Manager Fund, both within the Court Restricted Funds of \$15,800. All of the transfers represent 9.65% of General Fund revenue.

EXPENDITURES

Total FY21 General Fund expenditures are \$15,477,185 based on four categories – personnel services, materials and supplies, contractual services, and capital outlay. Personnel services (salaries, insurance, retirement, etc.) represent about 64% of total expenditures. Because City employees are one of our greatest assets, we strive to maintain professional and highly qualified staff, with a servant-leadership focus on the needs of the community. In order to fairly compensate employees in a financially sustainable way, a revised pay plan was developed for all sworn and non-sworn employees, as described earlier. The cost of Option C is included in the FY21 budget.

Contractual services are the second-largest expenditures at approximately 30%. This is due to the outsourcing of park mowing, right-of-way maintenance, and service contracts for City facilities. Materials and supplies are 5% of the expenditures, and capital outlay is less than 1% of the FY21 budget.

RESULTS AND FUND BALANCE

The FY21 budget reflects a shortfall of revenue versus expenditures of \$437,629. The City monitors the fund balances in accordance with City policy. The minimum General Fund requirement is 10% of total budgeted expenditures, with the goal being an accumulated fund balance of 15% of total expenditures. Due to the significant savings from changing health insurance providers, the FY20 budget included a new reserve for future premium increases, based on 10% of the annual premium costs. There is no increase in health premiums again in FY21, so the reserve for future increases remains intact.

The FY21 Budget is projected to have an ending fund balance of \$5,757,837, of which \$2,321,578 is the 15% reserve, and \$100,000 is the health insurance reserve. That leaves an unreserved fund balance of \$3,336,259.

A comparison of the reserve policies of our peer cities last year indicated that Murphy had the lowest reserve policy at 15%. Some cities had 20%, and others had 25% or higher. We anticipated recommending a higher reserve policy this year, but in light of the actual fund balance for FY21 projected to equal 37% of expenditures, there is no need to revise the policy at this time.

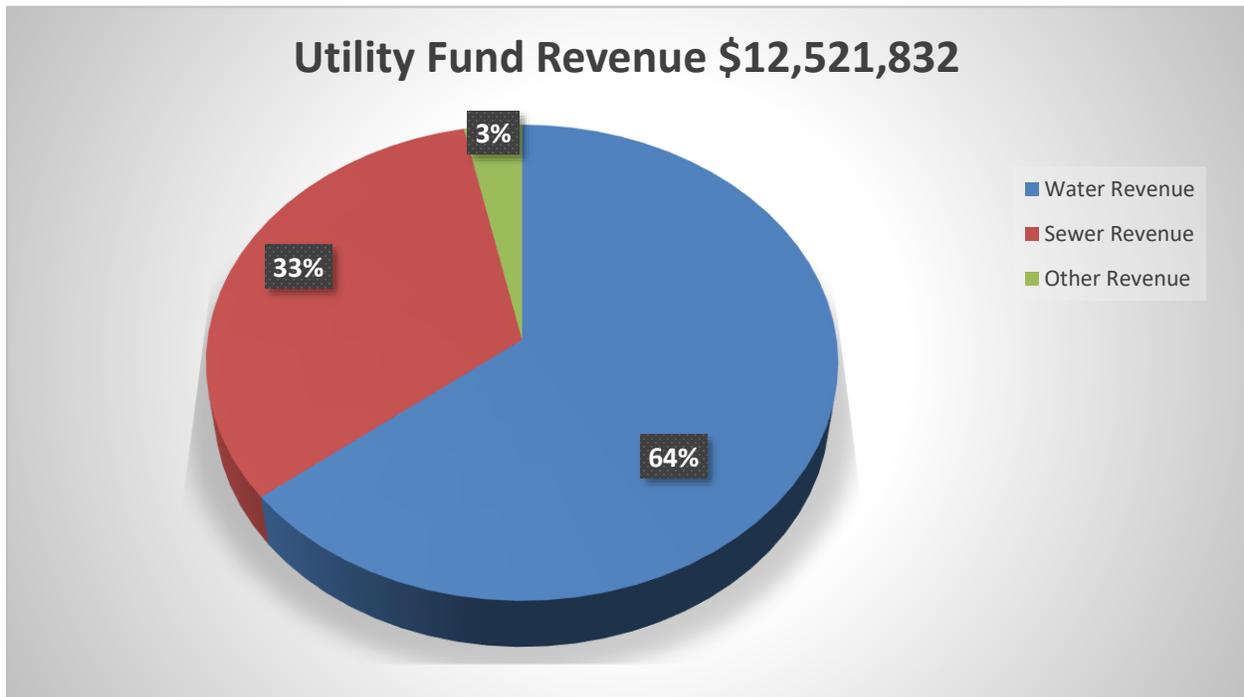

Over the next four years, the fund balance is projected to decline but then begins to increase again by FY25. Obviously, many things can change between now and then, particularly as the economic fallout from the pandemic materializes, so staff will continue to monitor the fund balance periodically.

UTILITY FUND

The Utility Fund accounts for the water and wastewater services provided to the residents and businesses. All activities necessary to provide such services are accounted for in this fund, including the costs from North Texas Municipal Water District (NTMWD) to provide water and treat the wastewater, billing and collection services, and all operating and capital costs to maintain the systems. Debt service associated with the financing of capital projects is also accounted for in this fund. The three departments in the Utility Fund are Water Distribution, Wastewater Collection, and Customer Service (Utility Billing and Collection).

The Utility Fund is a proprietary fund which accounts for activities that involve business-like transactions. An enterprise fund accounts for any activity for which external users are charged a fee for goods and services. Utility fees and charges are for water and sewer service, and the fund is intended to be self-supporting, which means it does not rely on tax revenue to cover the costs of providing water and sewer service. The fees and charges need to be set at a level that ensures the investment in infrastructure will be adequate for current and future use, as well as maintain a reasonable reserve level. The fund should also provide for the expenses of personnel, customer service, and other operating costs.

Total FY21 revenue is projected to be \$12,521,832. This is comprised of water revenue of \$8,042,423, wastewater revenue of \$4,072,787, and other revenue from inspection fees and charges of \$248,962, including a transfer of \$157,660 from the Impact Fee Fund.

Total expenditures for the FY21 Utility Fund budget are \$12,015,797 which includes \$4,695,426 for the purchase of water and \$2,313,043 for the treatment of wastewater from NTMWD. The City of Murphy will be charged under the take-or-pay contract for 1,538,414,000 gallons of water, which will be the third year in a row that we have not exceeded this cap. The cost of water is projected by NTMWD and remains unchanged at \$3.04 per thousand gallons. The total cost of water is set based on usage through July 31, 2020 and measured against the cap described above. Any usage under the cap may result in a small refund, based on a much lower rate. If usage during the period of August 1 through July 31st exceeds the cap, the excess usage for August and September is billed at an incremental cost (usually less than \$0.50 per thousand gallons), and a new cap is set for the ensuing year.

The City also shares the cost of the Muddy Creek Wastewater Treatment Plant and the Muddy Creek Interceptor (sewer collection line) with the City of Wylie. Since the NTMWD's budget is developed simultaneously with the City's budget, the final costs billed for water and sewer may differ from the estimates used in the FY21 budget.

In FY18, the City sold \$5.5 million in certificates of obligation (CO's). The proceeds were used for the seven water and wastewater capital projects. Two of those projects have been completed, and the work is currently underway on the other five projects. They should all be completed by the end of FY21. The specific projects are:

1. North Murphy Road: 8-inch water line
2. South Murphy Road: 8-inch water line
3. North Maxwell Creek: 8-inch water line replacement
4. Ground Storage Reservoir Repair & Repaint (3 Locations) - **Completed**
5. Northstar Pump Station Standby Generator
6. Sanitary Sewer Overflow Initiative (SSOI)
7. Camera System with Lateral Launcher - **Completed**

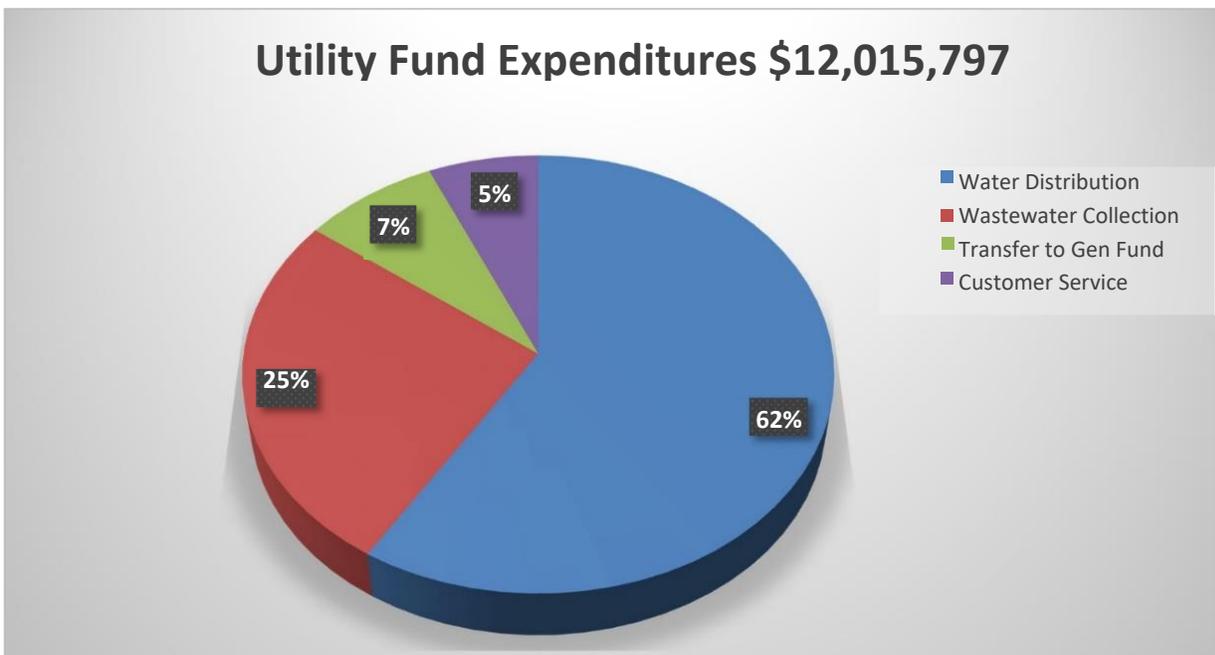

In light of the fiscal pressures facing cities and their customers due to the COVID-19 pandemic, NTMWD did not increase the water charges from \$3.04 per 1,000 gallons. It remains the same as FY20. However, there are significant capital improvements planned by NTMWD for the Muddy Creek wastewater treatment plant (WWTP) over the next several years, which will likely result in significant increases in the wastewater rates.

The improvements will consist of diverting peak flows of wastewater, when they exceed the treatment plant's ability to reliably treat the wastewater, into a basin. There are also plans to expand the capacity of the treatment plant from 10 MGD to 15MGD, in order to meet regulatory requirements. The cost of the improvements will be financed using new and restructured bond proceeds, some with interest only payable for a few years, borrowing from lower cost sources,

and available cash. As a result of NTMWD’s efforts, and with no major capital expenditures planned by the City over the next few years, the fund balance is projected to be sufficient to cover the shortfall in revenues versus expenditures. Therefore, no increase in water or sewer rates is necessary next year. As in recent years, the City again engaged NewGen Strategies and Solutions to review the current rates and develop recommendations that cover costs, while also maintaining a conservative 20% reserve in the Utility Fund.

It is important to keep in mind however, that the five-year rate analysis provides a reasonable, but not absolute, forecast of the future.

The FY21 Utility Fund budget includes a transfer of \$900,000 to the General Fund to cover administrative costs. This is the same as last year and is based on the approach used to calculate the transfers from MDD and MCDC funds. The General Fund departments that serve the Utility Fund, estimated the amount of time they spend doing so, and that percentage of their budgets was then combined to determine the appropriate transfer amount. Overall, it was about 20% of the department’s budgets.

RESULTS AND FUND BALANCE

City Council adopted a 20% reserve policy for the Utility Fund three years ago. Prior to that, rate increases had only been implemented to recover the cost of charges from the NTMWD. This practice was rapidly depleting the fund balance, and the Utility Fund was at risk of being unable to cover its operating costs for personnel, debt service, and maintenance of the water and sewer systems. Based on the five-year forecast, if all the assumptions materialize, the fund balance would again be almost depleted by FY25. It is imperative that the City continue its practice of analyzing water and sewer rates on an annual basis to avoid such a scenario.

MURPHY MUNICIPAL DEVELOPMENT DISTRICT FUND

The Murphy Municipal Development District (MDD) was formed in April 2012 to allow the City of Murphy to adopt a sales tax to fund the district. Currently, the MDD receives funds from a half cent sales tax generated within the city limits. The MDD can undertake a variety of projects with high flexibility using the sales tax proceeds, similar to a Community Development Corporation. The revenues are used to promote economic growth, carry out programs related to community development, and promotion of new and expanded business enterprises.

In May 2019, voters approved reducing the half-cent sales tax allocation to a quarter-cent sales tax allocation for economic development and authorized the remaining quarter-cent to be used for a new Street Maintenance and Repair Fund. As a result, the revenue in the MDD fund now is half of what it used to be. Total revenue for FY21 is \$487,690, total expenditures are \$277,862 and the fund balance is projected to be \$3,236,223.

MURPHY COMMUNITY DEVELOPMENT CORPORATION FUND

The Murphy Community Development Corporation (MCDC) is a Community Development Sales Tax Corporation whose purpose is to promote projects to enhance the community's image through beautification, parks, and open space ventures. The MCDC was created in June 2003 by the Murphy City Council and residents who recognize the need to set aside the money for these important public services. Total revenue for FY21 is \$955,079, expenditures are \$685,156, and the fund balance is projected fund to be \$1,247,389.

DEBT SERVICE FUND

Property taxes collected for the debt portion of the City's tax rate, also known as the Interest and Sinking fund, or I&S rate, are recorded in the Debt Service Fund. Similarly, the principal and interest payments made from the debt levy are recorded in the Debt Service Fund. According to the FY19 CAFR, there was \$40,908,466 in outstanding principal and interest obligations.

The FY21 Budget includes \$3,575,000 in principal and \$1,446,929 in interest (including \$3,600 of paying agent fees) of debt service obligations. This debt service will be paid utilizing the debt portion of the property taxes collected. The tax rate necessary to meet the required FY21 debt service is \$0.185144 per \$100 of assessed valuation. In FY18, the City sold \$13,073,803 of general obligation (GO) bonds, plus \$249,422 of issue costs, that were authorized by the voters in November 2017. The remaining \$8,571,197 of general obligation debt was sold in FY20, as well as a new tax note issue of \$1.6 million for capital outlay (see General Fund expenditure discussion earlier).

IMPACT FEE FUND

An “Impact Fee” is a charge or assessment imposed by a political subdivision for new development within its service area in order to generate revenue for funding or recouping the costs of capital improvements or facility expansions necessitated by and attributable to the new development. The City of Murphy water and wastewater service area is all land within the City limits.

Water and wastewater (or sewer) impact fees are currently funding a portion of the debt incurred by NTMWD for the construction of the Muddy Creek Waste Water Treatment Plant and various wastewater collection lines, and the debt incurred by the City for the construction of the elevated water storage tank on Rodeo Drive. With the anticipated build-out of the City in the next five years, new impact fees will diminish and therefore not be available to cover those costs in the future. This will place a greater burden on the water and wastewater rates to cover those costs.

An updated Impact Fee study was completed in FY19. Based on the updated study, the transfer from the Impact Fee Fund to the Utility Fund in FY21 will be \$157,660. This is slightly more than the FY20 transfer of \$140,411.

STREET MAINTENANCE AND REPAIR FUND

In May 2019, Murphy voters approved the allocation of one-quarter percent of city sales tax for street maintenance and repair. Concurrently, voters agreed to decrease the local sales tax allocation of the Murphy Municipal Development District from one-half cent to one-quarter cent. Included within the FY21 budget is a separate Street Maintenance and Repair Fund. The Street Fund will generate revenue of \$475,587 in FY21. The fund is being utilized for a Pavement Management System, which will determine future repair priorities throughout the city. A contract was let with Infrastructure Management Systems, and the analysis is currently underway, and should be completed in early FY21. This fund was also utilized to repair all forty-five sidewalks with trip hazards of two inches or greater, and street panel replacements on McMillan Road, Waters Edge, McCreary and FM544, Ashley, and Heritage Parkway.

CONCLUSION

Murphy has consistently been ranked in the top ten best suburbs in the Dallas-Fort Worth metroplex by *D Magazine*. In 2020, Murphy was ranked the fifth safest city in Texas by the National Council for Home Safety and Security. The Murphy police department was also re-accredited through the Texas Police Chiefs Association, and the fire department has an ISO rating of "1" - the best public protection classification available. Murphy has been recognized by the Texas Festivals and Events Association for the award-winning events offered, including Maize Days, Christmas in the Park, Tunes, Tales and Ales, and the Sounds at Sundown.

We are extremely proud of this City. As staff, we strive for excellence every day in order for this to continue to be an outstanding place to live, work, and play. The FY21 budget was built on that premise, and we believe this budget will provide the resources needed to serve our citizens and businesses well, even as the COVID-19 pandemic continues. Telecommuting and Zoom meetings have become the norm, in order to provide a safe environment for all. Additionally, staff will continue to monitor and manage expenditures, and the quarterly budget review meetings with directors and the City Manager that began in FY18, will continue in FY21.

I would like to close by thanking you, our elected officials, for your leadership, guidance, and support throughout the budget process. I would also like to thank the leadership and management teams for their hard work, dedication, and commitment to this effort. The budget process is a collaboration among all departments, and as such, serves as a testimony of our shared commitment to serving the citizens of Murphy, Texas.

Respectfully submitted,

Fire & Rescue

The Murphy Fire Department is responsible for serving the community through fire and life safety prevention, planning, preparation, response, restoration, and review. Our mission is to look for ways to provide for a high quality of life for those living, or visiting the city.

This department provides fire, emergency medical system and emergency management services. Some incidents require resources greater than available in Murphy so a reliance on neighboring communities is also planned. This additional aid is also reciprocated to those other communities as needed.

Whether the department is reviewing development plans for future commercial occupancies or delivering life safety messages at an HOA meeting the idea is to prevent occurrences that require emergency response. Those existing programs will be continued and new programs will be sought out. Murphy Fire Rescue stands ready to serve.

Solid Waste

The Solid Waste budget reflects the City's weekly solid waste and recycling services, which is provided by a third-party vendor.

In October 2017, the City initiated a Request for Proposal (RFP) process for solid waste and recycling services. The RFP process conducted by a committee formed of internal and external City staff, a City resident, and a consultant. The City received five proposals during this process, and in 2018 after a rigorous review, the Solid Waste Review Committee reported the results of the RFP to City Council. City Council approved the City to enter into a contract with Republic Services as the third-party vendor.

The contract agreement with Republic Services has an effective date of May 1, 2018, with a termination date of April 30, 2025. The contract includes a caveat, which allows for two renewal terms of two years each that could enable the agreement to remain in place until April 30, 2029, for a total of eleven years. The next RFP for solid waste and recycling services will begin in July of 2028 to allow a minimum of 9 months for the RFP process.

Murphy Cable TV PEG Fund

Fund #17

Fiscal Year 2021

Murphy Cable TV PEG Fund

The state issued cable service or video franchise requires that the cable services and video service provider pays directly to each city in which it provides service a franchise fee of 5% of its gross revenue (a defined term in Utilities Code Chapter 66), even if the incumbent cable provider is paying a smaller percentage or on different gross revenue base amount. Pro rata and 1% payment in lieu of in-kind PEG/I-Net facilities (Section 66.006). Chapter 66 also provides that if the incumbent cable provider pays any cash payments to the city in support of public educational, governmental channels or to support an institutional network, those cash payments are matched by the state-issued franchise holder as calculated by the city on a per subscriber basis. After the expiration of the incumbent cable franchise, all the state-issued franchise holders pay, at the cities choice, either an additional PEG capital support fee equal to 1% of its gross revenue or a fee equal to the per subscriber cash payments that were made under the expired incumbent’s cable franchise.

**Street Maintenance and
Repair Fund**
Fund #24

Fiscal Year 2021

Street Maintenance and Repair Fund

The Street Maintenance and Repair fund was effective in FY20 following voter approval in May 2019.

As streets and sidewalks are a function of the Public Works Department, staff is responsible for the transportation system which is comprised of signs & markers, signals/flashers, streets and sidewalks throughout the City of Murphy.

A new Street Maintenance and Repair Fund was created through a voter election in May 2019, and became effective in FY20, to utilize 0.25% of the sales tax revenues from the Murphy Municipal Development District (MDD) for streets and sidewalks. These funds will ensure a maintenance program of the streets and sidewalks for continuous improvement of the City of Murphy transportation system over the next four years (2020-2023). At that time, it will require an election to continue the allocation of the funds through the sales tax.

Stormwater Fund

Fund #25

Fiscal Year 2021

Stormwater Fund

The Storm Water Maintenance division inspects and maintains the Storm water system to include bar ditches, mainline pipe, curbs, storm inlets and outfalls. Debris collects in the system which can restrict the outflow and create a potential flooding hazard during excessive rainfalls. The stormwater system is inspected regularly; especially after substantial rainfalls and in response to citizen requests.

A new Stormwater Fund was created as part of the FY19 budget, in order to provide greater transparency and accountability around the drainage fee revenue and expenditures for drainage related costs. Prior to the creation of this fund, drainage fee revenues were recorded in the General Fund, as were the expenditures.

Based on the Stormwater study completed in March 2019, the current \$3.00 monthly drainage fee charged to residential property will increase to \$3.80 per month. The commercial utility customer rate will increase to \$19.15 per acre, to ensure that fair and equitable rates are based on impervious area as required by state law.

It will also be possible to leverage Stormwater fees in the future to complete significant drainage projects, by issuing bonds or certificates of obligation.

Keeping the public informed along the way, is a primary goal of this entire process.

Fund #38

Fiscal Year 2021

Murphy Municipal Development District (MDD) Fund

The Murphy Municipal Development District (MDD) was created through an election for an additional sales tax by the City of Murphy voters, similar to 4B Economic Development Corporation. Formed in April 2012 by the voters of Murphy, the MDD replaced the Murphy Economic Development Corporation (4A). The MDD Fund is overseen by a 5-member Board appointed by the Murphy City Council.

Prior to FY20, the MDD received funds from a half-cent sales tax. In May 2019, voters approved reducing the half-cent sales tax to a quarter-cent for economic development, and authorized the other quarter-cent sales tax to be used for a new Street Maintenance and Repair Fund.

The MDD's primary purpose is to manage a development project fund in which the MDD must deposit the quarter-cent sales tax proceeds into the fund. The revenues may be used to pay costs associated with development projects in the MDD such as promoting economic growth, carrying out programs related to community development, and promoting new and expanded business enterprises.

The goals of the MDD include promoting and retaining businesses that are unique to Murphy that will enhance the quality of life with family oriented activities, encouraging organizations and residents to reinvest in their community and strengthening the economic base with businesses that generate sales tax revenue.

Murphy Community Development Corporation (MCDC) Fund

The Murphy Community Development Corporation was formed in 2003 by the voters of Murphy and receives funds from the half-cent sales tax for community development projects. The seven-member board is appointed by the Murphy City Council. Community projects are identified and funded by sales tax. Expenditures are subject to the provisions of the Development Corporation Act of 1979.

The half-cent sales tax has enabled the City of Murphy to fund several quality-of-life projects such as park improvements and community facilities. It also covers the cost of Community Events through a transfer at year end, materials and supplies, contractual services, capital outlay and debt service. In FY19, the tax note debt associated with the Central Park improvements was retired enabling the purchase of additional capital items.

Budgetary Financial Policies

Fiscal Year 2021

Budgetary Financial Policies

Financial policies set forth the basic framework for the fiscal management of the City. Policies, which are reviewed and approved by the City Council, will be updated and implemented annually to ensure the City maintains a sound financial position in each of the City's fund and account groups. These policies are developed within the parameters set forth in the City's Charter, Article VII. The policies will provide guidelines for short and long term decision making.

A. Operating Funds Budget Policies

1. Prior to August 10th of each year the City Manager shall prepare and submit to the City Council, the annual budget covering the next fiscal year. A budget message shall be prepared in accordance with City Charter requirements.

2. The City shall operate on a current funding base. Expenditures shall be budgeted and controlled so as not to exceed current revenues plus the planned use of fund balance accumulated through prior year savings and any transfers.

3. Transfers between funds shall only be permitted to the extent that the basis and justification of the transfer can be quantified. Periodic transfers are made for administrative cost reimbursements to the various funds. In addition, fund transfers may occur when surplus fund balances are used to support non-recurring capital expenses.

4. One-time revenues in operating funds will not be used for funding of ongoing expenditures. One-time revenues shall only be used to fund capital improvements, capital equipment, or other one-time expenditures.

B. General Fund Revenue Policies

1. All new programs or service enhancements shall be implemented according to Council direction as a part of the budget process. In the event additional revenues are required to implement a new program or service enhancement, a cost benefit analysis of the program change will be conducted by the staff to determine if a new revenue source or increase in existing revenue will be needed. The analysis shall include the applicability of user fees as a source of revenue to support the new or expanded program. The maintenance and operation portion of the General Fund ad valorem tax rate shall only be raised after thorough review of other revenue sources.

2. Through the budget the City shall strive to develop a balance in major revenue sources to protect the financial stability of the City in the event of severe fluctuation in the national and/or local economy.

This balance will maintain a diversified and stable revenue system. The major revenue sources of the General Fund are Ad Valorem taxes, Sales Tax, Permits and all other charges for fines and services. Charges for services shall be reviewed and updated at least every five years. The review will consider the cost of providing the service and a review of similar charges in comparable cities in the region.

3. Revenues shall be projected based on actual collections from the preceding year and estimated collections of the current fiscal year, while taking into account known circumstances that will impact revenues for the new fiscal year. Revenue projections will be made conservatively.

4. Revenues shall be projected based on actual collections from the preceding year and estimated collections of the current fiscal year, while taking into account known circumstances that will impact revenues for the new fiscal year. Revenue projections will be made conservatively.

C. Utility Fund Revenue Policies

1. A cost of service rate study will be conducted to determine rates necessary to fund the utility fund for five years. Annual reviews by staff will be performed and updates to the study will be performed as necessary to ensure that the rates in effect will fund the utility budgets.

2. Capital improvements and participation in the oversizing of utility facilities during the development of the City required as a result of growth should be paid in part through impact fees that are reviewed and adjusted within the requirements of the statute allowing their utilization.

3. Utility Fund revenues are budgeted on the basis of a normal year, not on the basis of forecasted extreme wet or dry years. The City will make every reasonable effort to ensure that an accurate measurement of water purchased and sold is maintained.

4. The City shall consider the appropriateness of using contract revenue bonds issued through the NTMWD when considering the issuance of revenue bonds.

D. Debt Service Fund Revenue and Expenditure Policies

1. The City will issue only multi-year debt and the debt will be used only to fund capital projects that cannot be funded by current revenues except as may be otherwise required by an emergency or other unforeseen circumstance.

2. To minimize interest costs on issued debt, the City will structure debt with maturities not to exceed 20 years. Longer issues may be authorized in the unusual case of a substantially longer life or other extenuating circumstances. The final maturity date for any multi-year debt will not exceed the expected useful life of the capital improvement so financed.

3. An evaluation of existing and projected overlapping and direct debt shall be reviewed by the City Council, City's Financial Advisors, as well as any committee appointed by the Council to develop recommendations for new debt for the City. Estimates of growth shall be conservative and consideration will be given as to the City's future ability to repay the debt and maintain an ability to issue additional unforeseen debt.

E. Special Revenue Funds Revenue and Expenditure Policies

1. Special revenues include funds received for park programs. Funds generated from this source will be used for the expansion of park services.

F. Reserve Fund Balance Policies

1. The General Fund budget shall be submitted to the City Council with a fund balance reserve of not less than 10 percent of total budgeted expenditures for each fiscal year. It is the goal of the Council to accumulate a fund balance of 15 percent of total expenditures.

Within the Reserve Fund, Replacement Fund shall be created and funded. The Replacement Fund is intended to fund major expenditures that the City will incur as it strives to provide for its citizens. The City Council will consider allocating the following percentages of the total General Fund expenditure budget annually during its budget retreat:

1% Fire Department Vehicle and Equipment Replacement Fund;

1% Vehicle Replacement Fund;

1% Equipment Replacement Fund; and

2% Building Renovation and Repair Fund

2. Debt Service Fund balances shall not have a balance that exceeds five percent of the general obligation debt outstanding principal. Debt service fund balances in excess of this requirement may be drawn down to be used to reduce ad valorem tax revenue for bond principal and interest payments on existing or new debt. Consideration will be given to the impact such use would have on future tax rate calculations. Fund balance requirements shall always be in agreement with bond covenants.

3. The Utility Fund budget shall be submitted to the City Council with a fund balance reserve of not less than 20 percent of total budgeted expenditures for each fiscal year.

4. All other fund balances shall be maintained at a level necessary to ensure stability in the event of a

decline in revenues dedicated to that fund.

5. Fund balances which exceed the minimum levels established for each fund may be used for non-recurring capital projects or programs or in emergency situations.

G. Operating Fund Expenditures

1. Operating fund expenditures shall be accounted for and budgeted in four major categories:

- a. Personnel Services
- b. Materials and Supplies
- c. Contractual Services
- d. Capital Outlay

2. The operating budgets for all Funds shall be approved by the City Council at the departmental level. ***Any change to a department's line item budget more than 25%, the City Manager shall notify the City Council and discuss the change in the next monthly financial report.*** Reviews of the operating budgets shall be performed quarterly or as needed and budget amendments shall be presented to City Council when necessary.

3. The budget shall appropriate sufficient funds for operations to maintain existing quality and scope of City services and where appropriate include funds for expanded or new services.

4. The City will regularly examine programs and services in order to reduce operating cost or enhance service levels without cost increases.

5. Personnel service expenditures will reflect the minimum staffing to provide approved quality and scope of City services.

6. The City will provide a competitive compensation and benefit plan to attract and retain quality employees in order to provide high quality service.

7. Supply expenditures shall be sufficient to ensure optimal productivity of City employees. Maintenance expenditures shall be sufficient to ensure a relatively stable level of maintenance expenditures each budget year and to enhance and prolong the life of capital equipment and property.

8. Expenditures for new capital equipment shall be made only to enhance employee productivity, improve quality of service, or expand scope of services.

9. The City will evaluate the methods for providing public services in order to reduce operating expenditures and/or enhance quality and scope of services without increased costs.

H. Capital Project Expenditures

1. The City will develop a multi-year plan for capital projects, which identifies all projects likely to be constructed within a five-year period. The multi-year plan will reflect for each project the likely funding source and timeframe for completion.

2. Capital projects will be constructed to:

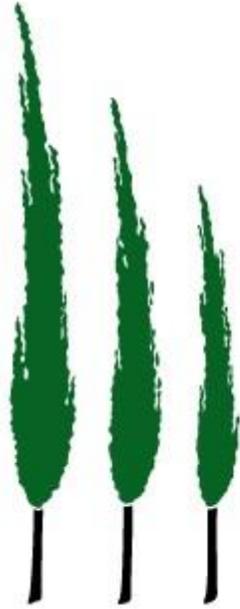

- a. Protect or improve the community's quality of life.
- b. Protect or enhance the community's economic vitality.
- c. Support and service new citizens and development.
- d. Provide significant rehabilitation of City infrastructure for sustained service.

3. The City will develop and implement a vehicle and equipment replacement program. This program will address the age, mileage/hours, repairs and condition of each vehicle and equipment in order to provide a timely replacement.

I. Budgetary Finance Committee

The City Council may appoint a Budgetary Finance Committee in July of each year for a one (1) year term. The Committee will review the City Manager's submitted August Annual Budget, the audited financial statements in March, and the Budgetary Financial Policies of the City. Any items of concern or interest shall be brought to the City Council's attention within thirty (30) days of receiving the budget or audited financial statements. The Committee shall be comprised of two council members, finance director, and two citizens at large.
