

MURPHY MINUTE

Spring 2024

A quick read of information about your city.

Leak detection has never been so easy!

Did you know Murphy has a **FREE** service that allows you to view your water consumption, receive timely leak alerts, customize your alert settings? This can help you save money on your next utility bill.

How does it work? After you register, Aquahawk will analyze your water consumption. If your usage indicates a water leak or other issue, you will receive a notification.

You can also specify an amount of water (gallons) or an estimated bill amount (dollars) that you don't want to exceed. If your water consumption or bill amount has exceeded or is projected to exceed the threshold value, Aquahawk will send you a notification! Scan the QR code below for this and other valuable things Murphy offers.

A note about solid waste.

Please place all trash/recycling in your designated bin. Trash should be bagged, and recycle should be clean and dry.

Murphy residents get weekly **FREE** bulk pickup! Each home can place up to four cubic yards (about the size of a regular pickup truck bed) with their weekly collection. Please keep in mind, it's a different truck than your regular collection. If you have any questions about this, please contact our Customer Service department.

Got Sharps?

Disposing of them is easier than you may think!

Sharps can be placed in a **thick** plastic container, top taped really well (with duct tape for example) and put in your regular trash can.

Please don't use thinner containers like milk jugs, plastic laundry soap containers work best.
