Mayor Eric Barna
Murphy City Council
206 N. Murphy Road
Murphy, Texas 75094

Dear Mayor Barna and Members of the City Council,

In accordance with the City of Murphy's Charter, Section 7.02, and with the financial policies of the City, I am pleased to submit the FY17 Annual Budget for the period of October 1, 2016 through September 30, 2017.

The Leadership Team began developing the FY17 Annual Budget in April. The City Council and Leadership Team met in June to discuss the proposed budgets and how the departmental budgets were meeting the needs of the Community.

FINANCIAL SUMMARY

Total budget for FY17 is \$32,784,700 and is an increase of .37% from the FY16 adopted budget. The following table illustrates the adopted budgets for FY16 and FY17 as well as the percent change from one fiscal year to the next.

Total budget	\$ 32,664,600	\$ 32,784,700	0.37%

Property Values

The City of Murphy saw an increase in certified appraised values this year of approximately 10% for a certified total of \$2,108,125,222; with \$83,944,475 under review. Of that increase \$25,876,000 is due to new construction. The increase in property values has been a trend for several years with the largest increase of approximately 9.5% in FY 15 and the smallest of approximately 0.40% in FY12. As the City reaches build out in the next couple of years, this trend of increase will slow down. The City will not be able to continue to rely on increased property values as an additional source of revenue.

The City's property taxes are divided into two components: Operations and Maintenance (O&M) and Debt Service. The O&M portion funds the daily operations of City government, such as administration, fire, police, parks, streets, code compliance, community development and sanitation. Debt Service is the portion that funds the debt the City has incurred to provide essential infrastructure and quality of life amenities for our community. The City has maintained an average total tax rate of \$0.56000 for the past six years while the average O&M tax rate has averaged at \$0.3300 with the balance of the tax rate funding the debt of the City. The tax rate for FY 17 is \$0.5100 per \$100 valuation, a two cent decrease from FY 16. The O&M rate is \$0.3277 (a decrease of \$0.0055) and the debt service rate is \$0.1823 (a decrease of \$0.0145).

This is the third consecutive year that the City has decreased the property tax rate. Even though the appraised values have increased over the past several years, other revenue sources within the General Fund have fallen short of expectations.

GENERAL FUND BUDGET

REVENUES

The City of Murphy receives approximately 48% of the budgeted revenues from property taxes. The City's property taxes are divided into two components: Operations and Maintenance (O&M) and Debt Service. The O&M portion funds the daily operations of City government, such as administration, fire, parks, police, streets and sanitation.

Debt service is the portion that pays for debt the City has incurred to provide essential services to our community. The tax rate for FY17 is \$0.5100 per \$100 valuation.

The O&M rate is \$0.3277 (a decrease of \$0.0055) and the debt service rate is \$0.1823 (a decrease of \$0.0145). The average market value of a single family home is currently at \$340,004 and will pay approximately \$1,734.02 in city property tax.

Sales Tax revenue is budgeted at a 3.0% increase as the economy continues to improve and will generate approximately 13% of the General Fund revenue. Other Revenue generates approximately 6% of General Fund revenue, Franchise Fees at 7%, followed by Solid Waste at 6%, Permits & Licenses at 5% and Municipal Court Revenue at 2%.

The General Fund also receives an \$850,000 transfer from the City's Utility Fund and a \$17,000 transfer from the City's Juvenile Case Manager Fund (funded from court costs). The transfer from the Utility Fund is used to offset Administrative expenses incurred in the General Fund for the benefit of the Utility Fund and will allow the City to purchase the needed capital without increasing taxes. The transfer from the City's Juvenile Case Manager Fund will pay a portion of the Municipal Court Juvenile Case Manager's salary and benefits. These transfers are approximately 6% of the General Fund revenue.

General Fund Revenues

As evidenced above, the City is heavily dependent on property taxes for General Fund revenue. The City must continue to diversify revenue sources by growing the commercial businesses which generate sales tax. However, we must be careful in the area of economic development. The City should encourage businesses that are unique and complement our community. They should not only increase sales taxes but also increase property values for them and surrounding neighbors.

EXPENDITURES

The greatest asset of the City of Murphy is our employees. The City of Murphy will maintain professional and highly trained staff with a servant leadership focus. The City Council approved a Pay Plan for all employees in the summer 2016, which will be implemented October 2016. Personnel costs represent approximately 60% of the approved expenditures.

Contractual services are the second greatest expenditures at approximately 28%. This is due to outsourcing of park mowing, right-of-way maintenance and service contracts for City facilities. Supplies account for 5% and capital account for 7% of the expenditures.

UTILITY FUND BUDGET

The Utility Fund accounts for the water and waste water services provided to the residents of the City of Murphy. All activities necessary to provide such services are accounted for in this fund, including construction, financing and related services. No taxes are used to support these services.

The following departments are funded through the Utility Fund:

- Water Distribution
- Wastewater Collection
- Customer Service (utility billing/receiving)

The main focuses for the Utility Fund are to maintain current levels of service, provide services for the continued residential growth, improve commercial development within the City and to provide maintenance and capital dollars for the general health of the system.

Total expenditures for the FY17 budget are \$9,485,000 which includes \$3,570,900 for the purchase of water and \$1,310,800 for the treatment of wastewater from North Texas Municipal Water District. The City of Murphy will purchase 1,384,066,000 gallons of water at \$2.58 per thousand gallons of water for a total cost of \$3,570,900 for FY 2016 from North Texas Municipal Water District regardless of how many gallons of water the city sells/uses. The City also shares the cost of the Muddy Creek Waste Water Treatment Plant and the Muddy Creek Interceptor (sewer collection line) with the City of Wylie at cost of approximately \$1.7 million.

The City’s Utility fund is our enterprise fund and should generate enough revenue to ensure the investment in infrastructure is adequate for current and future use. The fund should also provide for the expenses of personnel, customer services, development and maintenance.

COMMUNITY IMPROVEMENT BUDGET

The citizens of Murphy approved a \$16 million bond program in November 2008. During the past five years, the City built new parks, revitalized existing parks, remodeled and opened a Community Center, beautified medians and streetscapes, purchased land for parks and repaired various streets throughout the City.

The bond program has cost the taxpayers approximately \$.05 cents per \$100 valuation to cover the cost of the issued debt.

MUNICIPAL DEVELOPMENT DISTRICT FUND BUDGET

The Murphy Municipal Development District (MMDD) was formed in April 2012 to allow the City of Murphy to adopt a sales tax to fund the district. The Corporation receives funds from a half-cent sales tax generated within the city limits. The MMDD can undertake a variety of projects with high flexibility using the sales tax proceeds, similar to a Community Development Corporation. The revenues are used to promote economic growth, carry out programs related to community development, and promotion of new and expanded business enterprises. Total revenues for FY17 are projected at \$958,500, with a projected fund balance of \$1,513,272.

COMMUNITY DEVELOPMENT CORPORATION FUND BUDGET

The Murphy Community Development Corporation (MCDC) is a Community Development Sales Tax Corporation whose purpose is to promote projects to enhance the community's image through beautification, parks and open space ventures. The MCDC was created in June 2003 by the Murphy City Council and residents who recognize the need to set aside the money for these important public services. Total revenues for FY17 are projected at \$954,000 with a projected fund balance of \$353,076.

DEBT SERVICE FUND BUDGET

The total general obligation outstanding debt including principal and interest is \$32,295,332. The debt portion of the debt payable in FY 17 is \$2,960,000 of principal and \$1,020,688 of interest for a total of \$3,980,688. The tax rate necessary to generate the appropriated amount of taxes to pay the debt service requirement is \$0.1823 per \$100 valuation. During FY 2009, FY 2011 and FY 2012, the City refunded/refinanced outstanding bonds with higher interest rates with a lower interest rate bond and saved the City \$1,822,090 of interest over a 15 year period. City staff and the City's Financial Advisor continue to monitor the bond market and interest rates to ensure that the City is taking advantage of any interest savings.

IMPACT FUND BUDGET

An "Impact Fee" is a charge or assessment imposed by a political subdivision for new development within its service area in order to generate revenue for funding or recouping the costs of capital improvements or facility expansions necessitated by and attributable to the new development. The City of Murphy water and wastewater service area is all land within the City limits.

The first step in determining an impact fee is to prepare land use and growth assumptions for the service area for the next ten years. Next, a Capital Improvement Plan must be created to describe the water and wastewater infrastructure that will be necessary to serve the anticipated land uses and growth. The following items can be included in the impact fee calculation:

- The portion of the cost of the new infrastructure that is to be paid by the City, including engineering, property acquisition and construction costs;
- Existing excess capacity in lines and facilities that will serve future growth and which were paid for in whole or part by the City; and
- Interest and other finance charges on bonds issued by the City to cover its portion of the cost.

The City's Capital Improvement Plan must be reviewed and updated in 2016 to accommodate the needs of the City. A Capital Improvement Program committee will begin this process in the next couple of months.

Water and Sewer impact fees are currently funding a portion of the debt incurred by North Texas Municipal Water District for the construction of the Muddy Creek Waste Water Treatment Plant and various waste water collection lines and the debt incurred by the City for the construction of the elevated water storage tank on Rodeo Drive. With the anticipated build-out of the City within the next five years, impact fees may no longer be available to fund the debt for the Muddy Creek Waste Water Treatment Plant, waste water collection lines and the elevated water storage tank. The funding of this debt will be the responsibility of the Utility Fund and will require adjustment to the water and sewer rates.

CONCLUSION

Murphy is an outstanding community that was just awarded #1 place to live by *Movoto Real Estate* and has been ranked several times in the top 10 best suburbs in the Dallas/Ft. Worth area by *D Magazine*. We are very proud of our city and will continue to strive for excellence, and to make this an excellent place to work, live and play.

This is a strong budget that will enable the staff the opportunity to provide exceptional customer and community services to our citizens. However, the budget is not without challenges. The staff will continue to monitor and manage the budget throughout the fiscal year. The staff will also make the necessary adjustments to ensure our compliance with the FY17 Annual Budget.

I would like to thank the City Council and Leadership Team for their contributions and support in the development of the FY17 Annual Budget. I especially want to thank Steven Ventura, Interim Finance Director, for his tireless hours and dedication to the preparation of the budget.

Sincerely,

Mike Castro, PhD
City Manager

City Administration

The City of Murphy operates under a “Council-Manager form of government.” The City Council appoints the City Manager, who shall serve as the Chief Administrative Officer for the City of Murphy. The City Manager is responsible for the administration of all affairs of the City and manages the diverse departments to keep the City running smoothly. The City Manager is supported by a Leadership Team who leads the dynamic force of 100 plus employees every day to accomplish the goals, objectives and expectations of the Mayor, City Council and Citizens. The City Manager is the primary point of contact between the City’s departments and the Mayor and City Council. The main functions are to lead, guide and provide coordination to the departments as they implement City policy decisions made by the Mayor and City Council. The City Manager enforces municipal laws and ordinances and recommends improvement in operations.

This office is also responsible for presenting the Annual Budget and Community Improvement Program to City Council and provides accurate, timely information and recommendations regarding City-wide policies.

Information Technology

The Murphy Information Technology Department (ITD) develops and maintains the vital infrastructure and services which enable city employees to serve the citizens of Murphy.

The department secures, operates, enhances and supports a broad variety of products and technical systems for city departments ranging from water and wastewater, SCADA systems, economic development, social media, fiscal and payroll applications to public safety applications which require 24x7x365 support and reliability.

In addition to technical support, the ITD provides business analysis and project management resources in an effort to help city departments determine the best solutions to meet their needs. The department is responsible for data and voice communication, including local, wide-area and wireless networks, business application development, as well as hardware, software and desktop troubleshooting and support.

The Murphy ITD is also tasked with ensuring that internal business processes and technical systems comply with a variety of regulations to include, but are not limited to, the Payment Card Industry (PCI), Health Insurance Portability and Accountability Act (HIPAA), Open Records Act/Public Information Act, Americans with Disabilities Act (ADA), Federal Bureau of Investigation Criminal Justice Information System (FBI CJIS), Texas Department of Public Safety Texas Law Enforcement Telecommunications System (TxDPS), Texas Commission on Environmental Quality (TCEQ), and the Department of Homeland Security (DHS).

Fire & Rescue

The Murphy Fire Department is responsible for serving the community through fire and life safety prevention, planning, preparation, response, restoration, and review. Our mission is to look for ways to provide for a high quality of life for those living, or visiting the city.

This department provides fire, emergency medical system and emergency management services. Some incidents require resources greater than available in Murphy so a reliance on neighboring communities is also planned for. This additional aid is also reciprocated to those other communities as needed.

Whether the department is reviewing development plans for future commercial occupancies or delivering life safety messages at an HOA meeting the idea is to prevent occurrences that require emergency response. Those existing programs will be continued and new programs will be sought out. Murphy Fire Rescue stands ready to serve.

Public Works

The Public works department is comprised of Streets/Sidewalks and Storm Water.

The Street/Sidewalk Division is responsible for the surface repair and maintenance of streets and sidewalks throughout the City. Additional functions include minimizing hazardous roadway conditions, performing drainage work, and responding to citizen requests for service. This division also responds to emergencies and weather related events as needed in an effort to assure safe conditions for citizens and motorists.

The Storm Water Maintenance division checks and maintains storm inlets. Debris collects in these inlets which can restrict the outflow and cause a flooding hazard during excessive rainfalls. Inlets and outlets are inspected monthly, after heavy rainfall and in response to a citizen request that may cause a potential problem.

Community Services

Community Services have several responsibilities in many areas. Building inspections is responsible for reviewing permit plans and performing inspections for new projects as well as, additions, and remodeling projects for residential and commercial properties. The Building Inspections Department enforces the building, electrical, plumbing, mechanical, fuel gas and energy codes, zoning ordinances, and certain State statutes relating to construction.

Code Compliance is responsible for inspecting properties within the city to enforce specific City ordinances related to public nuisances, zoning violations and substandard buildings. Our Code Compliance Officers are authorized to pursue criminal and civil remedies to abate nuisances within Murphy for the purpose of maintaining a safe, sanitary and clean city.

The Health Department is charged with protecting the health and safety of the public. The Health Inspectors ensures that all food service establishments, public and semi-public swimming pools, and daycare and retirement centers meet safe and sanitary requirements by developing and implementing health education, investigation and enforcement programs.

The Planning & Zoning Department processes all zoning and development including but not limited to specific use permits, site plans, landscape plans, and plats. This department is also responsible for processing Planning & Zoning Commission and Zoning Board of Adjustment cases. Updating and managing the City's Comprehensive Plan is another primary objective of the Planning & Zoning Department.

Murphy Cable TV PEG

Fiscal Year 2017

Murphy Cable TV PEG

The state issued cable service or video franchise requires that the cable services and video service provider pays directly to each city in which it provides service a franchise fee of 5% of its gross revenue (a defined term in Chapter 66), even if the incumbent cable provider is paying a smaller percentage or on different gross revenue base amount. Pro rata and 1% payment in lieu of in-kind PEG/I-Net facilities (Section 66.006): Chapter 66 also provides that if the incumbent cable provider pays any cash payments to the city in support of public educational, governmental channels or to support an institutional network, those cash payments are matched by the state-issued franchise holder as calculated by the city on a per subscriber basis. After the expiration of the incumbent cable franchise, all the state-issued franchise holders pay, at the cities choice, either an additional PEG capital support fee equal to 1% of its gross revenue or a fee equal to the per subscriber cash payments that were made under the expired incumbent's cable franchise.

Municipal Development District Budget

Fiscal Year 2017

Municipal Development District

The Murphy Municipal Development District (MMDD) was created through an election for an additional sales tax by the City of Murphy's voters, similar to 4B EDC. Formed in April 2012 by the voters of Murphy, the MMDD replaced the Murphy Economic Development Corporation (4A). The MMDD receives funds from a half-cent sales tax generated within the city limits, and a five-member Board is appointed by the Murphy City Council.

The MMDD's primary purpose is to manage a development project fund in which the MMDD must deposit the half-cent sales tax proceeds into the fund. The revenues may be used to pay costs associated with development projects in the MMDD such as promoting economic growth, carrying out programs related to community development, and promoting new and expanded business enterprises.

The goals of the MMDD include promoting and retaining businesses that are unique to Murphy that will enhance the quality of life with family oriented activities, encouraging organizations and residents to reinvest in their community and strengthening the economic base with businesses that generate sales tax revenue.

Fiscal Year 2017

Community Development Corporation

The Murphy Community Development Corporation was formed in 2003 by the voters of Murphy and receives funds from the half-cent sales tax for community development projects. The seven-member board is appointed by the Murphy City Council. Community projects are identified and funded by sales tax. Expenditures are subject to the provisions of the Development Corporation Act of 1979.

The half-cent sales tax has enabled the City of Murphy to fund several quality-of-life projects such as park improvements and community events.

2017 Budgetary Financial Policies

Financial policies set forth the basic framework for the fiscal management of the City. Policies, which are reviewed and approved by the City Council, will be updated and implemented annually to ensure the City maintains a sound financial position in each of the City's fund and account groups. These policies are developed within the parameters set forth in the City's Charter, Article VII. The policies will provide guidelines for short and long term decision making.

A. Operating Funds Budget Policies

1. Prior to August 10th of each year the City Manager shall prepare and submit to the City Council, the annual budget covering the next fiscal year. A budget message shall be prepared in accordance with City Charter requirements.
2. The City shall operate on a current funding base. Expenditures shall be budgeted and controlled so as not to exceed current revenues plus the planned use of fund balance accumulated through prior year savings and any transfers.
3. Transfers between funds shall only be permitted to the extent that the basis and justification of the transfer can be quantified. Periodic transfers are made for administrative cost reimbursements to the various funds. In addition, fund transfers may occur when surplus fund balances are used to support non-recurring capital expenses.
4. One-time revenues in operating funds will not be used for funding of ongoing expenditures. One-time revenues shall only be used to fund capital improvements, capital equipment, or other one-time expenditures.

B. General Fund Revenue Policies

1. All new programs or service enhancements shall be implemented according to Council direction as a part of the budget process. In the event additional revenues are required to implement a new program or service enhancement, a cost benefit analysis of the program change will be conducted by the staff to determine if a new revenue source or increase in existing revenue will be needed. The analysis shall include the applicability of user fees as a source of revenue to support the new or expanded program. The maintenance and operation portion of the General Fund ad valorem tax rate shall only be raised after thorough review of other revenue sources.
2. Through the proposed budget the City shall strive to develop a balance in major revenue sources to protect the financial stability of the City in the event of severe fluctuation in the national and/or local economy. This balance will maintain a diversified and stable revenue system. The major revenue sources of the General Fund are Ad Valorem taxes, Sales Tax, Permits and all other charges for fines and services.
3. Charges for services shall be reviewed and updated at least every five years. The review will consider the cost of providing the service and a review of similar charges in comparable cities in the region.

4. Revenues shall be projected based on actual collections from the preceding year and estimated collections of the current fiscal year, while taking into account known circumstances that will impact revenues for the new fiscal year. Revenue projections will be made conservatively.

C. Utility Fund Revenue Policies

1. A cost of service rate study will be conducted to determine rates necessary to fund the utility fund for five years. Annual reviews by staff will be performed and updates to the study will be performed as necessary to ensure that the rates in effect will fund the utility budgets.

2. Capital improvements and participation in the oversizing of utility facilities during the development of the City required as a result of growth should be paid in part through impact fees that are reviewed and adjusted within the requirements of the statute allowing their utilization.

3. Utility Fund revenues are budgeted on the basis of a normal year, not on the basis of forecasted extreme wet or dry years. The City will make every reasonable effort to ensure that an accurate measurement of water purchased and sold is maintained.

4. The City shall consider the appropriateness of using contract revenue bonds issued through the NTMWD when considering the issuance of revenue bonds.

D. Debt Service Fund Revenue and Expenditure Policies

1. The City will issue only multi-year debt and the debt will be used only to fund capital projects that cannot be funded by current revenues except as may be otherwise required by an emergency or other unforeseen circumstance.

2. To minimize interest costs on issued debt, the City will structure debt with maturities not to exceed 20 years. Longer issues may be authorized in the unusual case of a substantially longer life or other extenuating circumstances. The final maturity date for any multi-year debt will not exceed the expected useful life of the capital improvement so financed.

3. An evaluation of existing and projected overlapping and direct debt shall be reviewed by the City Council, City's Financial Advisors, as well as any committee appointed by the Council to develop recommendations for proposed new debt for the City. Estimates of growth shall be conservative and consideration will be given as to the City's future ability to repay the debt and maintain an ability to issue additional unforeseen debt.

E. Special Revenue Funds Revenue and Expenditure Policies

1. Special revenues include funds received for park programs. Funds generated from this source will be used for the expansion of park services.

F. Reserve Fund Balance Policies

1. The proposed General Fund budget shall be submitted to the City Council with a fund balance reserve of not less than 10 percent of total budgeted expenditures for each fiscal year. It is the goal of the Council to accumulate a fund balance of 15 percent of total expenditures.

Within the Reserve Fund, Replacement Fund shall be created and funded. The Replacement Fund is intended to fund major expenditures that the City will incur as it strives to provide for its citizens. The City Council will consider allocating the following percentages of the total General Fund expenditure budget annually during its budget retreat:

1% Fire Department Vehicle and Equipment Replacement Fund;

1% Vehicle Replacement Fund;

1% Equipment Replacement Fund; and

2% Building Renovation and Repair Fund

2. Debt Service Fund balances shall not have a balance that exceeds five percent of the general obligation debt outstanding principal. Debt service fund balances in excess of this requirement may be drawn down to be used to reduce ad valorem tax revenue for bond principal and interest payments on existing or new debt. Consideration will be given to the impact such use would have on future tax rate calculations. Fund balance requirements shall always be in agreement with bond covenants.

3. All other fund balances shall be maintained at a level necessary to ensure stability in the event of a decline in revenues dedicated to that fund.

4. Fund balances which exceed the minimum levels established for each fund may be used for non-recurring capital projects or programs or in emergency situations.

G. Operating Fund Expenditures

1. Operating fund expenditures shall be accounted for and budgeted in four major categories:

- a. Personnel Services
- b. Materials and Supplies
- c. Contractual Services
- d. Capital Outlay

2. The operating budgets for all Funds shall be approved by the City Council at the departmental level. ***Any change to a department's line item budget more than 25%, the City Manager shall notify the City***

Council and discuss the change in the next monthly financial report. Reviews of the operating budgets shall be performed quarterly or as needed and budget amendments shall be presented to City Council when necessary.

3. The proposed budget shall appropriate sufficient funds for operations to maintain existing quality and scope of City services and where appropriate include funds for expanded or new services.

4. The City will regularly examine programs and services in order to reduce operating cost or enhance service levels without cost increases.

5. Personnel service expenditures will reflect the minimum staffing to provide approved quality and scope of City services.

6. The City will provide a competitive compensation and benefit plan to attract and retain quality employees in order to provide high quality service.

7. Supply expenditures shall be sufficient to ensure optimal productivity of City employees. Maintenance expenditures shall be sufficient to ensure a relatively stable level of maintenance expenditures each budget year and to enhance and prolong the life of capital equipment and property.

8. Expenditures for new capital equipment shall be made only to enhance employee productivity, improve quality of service, or expand scope of services.

9. The City will evaluate the methods for providing public services in order to reduce operating expenditures and/or enhance quality and scope of services without increased costs.

H. Capital Project Expenditures

1. The City will develop a multi-year plan for capital projects, which identifies all projects likely to be constructed within a five-year period. The multi-year plan will reflect for each project the likely funding source and timeframe for completion.

2. Capital projects will be constructed to:

- a. Protect or improve the community's quality of life.
- b. Protect or enhance the community's economic vitality.
- c. Support and service new citizens and development.
- d. Provide significant rehabilitation of City infrastructure for sustained service.

3. The City will develop and implement a vehicle and equipment replacement program. This program will address the age, mileage/hours, repairs and condition of each vehicle and equipment in order to provide a timely replacement.

I. Budgetary Finance Committee

The City Council may appoint a Budgetary Finance Committee in July of each year for a one (1) year term. The Committee will review the City Manager's submitted August Annual Budget, the Audit Financial Report in March, and the Budgetary Financial Policies of the City. Any items of concern or interest shall be brought to the City Council's attention within thirty (30) days of receiving the proposed budget or Audit Financial Report. The Committee shall be comprised of two council members, finance director, and two citizens at large.
